**Subject:** Camellia Way Road Replacement

Good morning everyone,

**Beginning Wednesday, April 22, 2026**, approximately 260 feet of the north lane on Camellia Way—from 1033 to 1017 W Camellia Way—will undergo replacement.

The project is anticipated to be completed and the road reopened to traffic by Sunday, April 26. Residents at 1033, 1025, and 1017 W Camellia Way will temporarily lose driveway access for 24 hours following the concrete pour; after this period, passenger vehicles may return to driveways once the concrete has adequately set. During construction, please utilize overflow parking located outside the designated area.

Residents residing west and south of the construction zone are advised to use the 59th Street entrance to bypass the work area throughout the duration of repairs. Please exercise extra caution while traveling near the site.

We appreciate your cooperation and understanding as we continue our efforts to improve local roadways.
